is assured. The threatened trouble between the Turks and Montenegro is the result of the aggressive action of the latter, who crossed the River Zeta, and occupied the high commanding position of Podgoritz, after the conclusion of the armistice. The Turks now demand the withdrawal of the Montenegrins from the Zeta.

## THE CLERICAL CHARGES.

LONDON, May 30.—The report of the removal of Pash, Osman, and Mukhtar Pashas from their commands before Constantinople is not confirmed, but it is said the Sultan is suspicious of them, and has appointed Mahmoud Damad Pasha, Minister of War, partly for the purpose of neutralizing their influence, although the latter is likely to have a contrary effect, as Mahmoud is intensely popular with the troops. The Sultan nominated him without consulting Sadi Pasha. Hence the withdrawal of the latter from the Ministry.

Mechev, Rusev Pasha, Sadi's successor, is represented to be honest and patriotic, but too old to have much influence. He is known to be in favor of an alliance with Great Britain.

## MALIHA.

LONDON, May 30.—A letter from Constantinople explaining the recent change of position made by the Russians, says the country between San Stefano and Adrianople is exceedingly malarious, and 15,000 Russians on that line have died, mostly of fever, within two months.

THE INSURGENTS.

LONDON, May 30.—A telegram from Constantinople says the Commissioner of the Porte reports that the Mohammedan insurgents numbered 30,000, are well armed, and impregnable in their positions. They refuse to disarm, as the Russians are powerless to repress the excesses of the Bulgarians.

## INCIDENTAL.

LONDON, May 30.—A dispatch from Vienna reports that the troops of the Austrian army on the coast of Maine, has not been received, and the steamer will return to Hamburg before long. This is regarded as a peaceful sign.

## ENGLISH PARLIAMENT.

EDINBURGH, May 30.—A rumor of the dissolution of Parliament are again current.

## RUSSIAN PREPARATIONS.

GETTING READY FOR EVENTUALITIES.

PHILADELPHIA, May 18.—Russian operations in the United States have reached a point at which the United States government is expected to take some of them. Various American journals say that Russian movements already violate the spirit of the neutrality laws, and report that Russia is making efforts to prevail on Congress to modify them. Her officers are in the United States, and are expected to take some of them. Various American journals say that Russian movements already violate the spirit of the neutrality laws, and report that Russia is making efforts to prevail on Congress to modify them. Her officers are in the United States, and are expected to take some of them.

## THE ANGLO-RUSSIAN AGREEMENT.

LONDON, May 30.—An extra edition of the Globe, published this evening, contains the following: "We have good reason to believe that the assembling of the Congress is definitely settled. England and Russia have arrived at an understanding, subject to the decisions of the Congress, on the following points: Bulgaria to be divided into two provinces, one north of the Balkans, under a Prince; the other south of the Balkans, under a Christian Governor, and a government similar to that of an English colony. The Turkish troops are to be withdrawn from the Balkans."

## PERMANENTLY QUIET BULGARIA.

England declares, but will not oppose, the retention of Bulgaria, and the north of the Balkans, and reserves the right to discuss in Congress international arrangements relative to the Danube. Russia promises not to further advance her Asian frontier, or take indemnity from Bulgaria, or interfere with Bulgaria's independence, and reserves the right to discuss in Congress international arrangements relative to the Danube. Russia promises not to further advance her Asian frontier, or take indemnity from Bulgaria, or interfere with Bulgaria's independence, and reserves the right to discuss in Congress international arrangements relative to the Danube.

## A CONTINGENCY.

LONDON, May 30.—If an understanding is reached on certain points in the first few sittings of the Congress the British fleet will retire to Bessika Bay, and the Russians to Bulgaria, and the Russians to Bulgaria.

## ANDRASSY'S VIEW.

VIENNA, May 30.—Count Andrassy today informed the Hungarian delegation that he thought England and Russia would reach no agreement damaging to Austria-Hungary. So far none of the repeated Russian replies to Austrian objections to the treaty of San Stefano has been successful in recording the divergent views of the two Empires. The points recapitulated yesterday by no means exhausted those involving the interests of Austria, to whom the Panbalkan and Roumanian questions were also important. Count Andrassy's language was very determined. He said the monarchy is vested on the basis of historical development, and let him who touches it beware.

## THE FEELING IN RUSSIA.

A special from St. Petersburg says: "It is rumored that Count Schouvaloff is again expected here in a few days. Public opinion and the press more or less disapprove of the Government's concessions. The army is especially excited by Count Andrassy's declarations."

## TALK OF A BRITISH PROTECTORATE.

LONDON, May 30.—The Times this morning returns to the subject of the British Protectorate in Asia Minor, and says a constitutional Ministry in Turkey is being formed. There must be some permanent centre of force to control by attraction the shifting sands of personal will or caprice. That central force is to be based on the British Government's concessions. The army is especially excited by Count Andrassy's declarations."

## CUBA.

NEW YORK, May 30.—General Antonio Maceo, the celebrated Cuban patriot, arrived today from Cuba. He is accompanied by two members of his staff, Brigadiers Arcadio Le Vidal and Juan de los Rios. The General is expected to be in the city for some time.

## MISCELLANEOUS.

LONDON, May 30.—The report of the Royal Commission on Copyright recommends that the duration of a copyright be for life, and thirty years thereafter. The report also recommends that the British dominions to have the same right as British subjects; dramatic and musical compositions to be on the same footing as books, and the right of dramatising to be co-extensive with copyright. It is proposed that a newspaper may be copyrighted should be defined by legislation.

The duration of a copyright for all works of art, except photographs, should be the same as above, and for photographs thirty years from the date of publication. The report recommends the abolition for the future of the monopoly enjoyed by the Scotch and English Universities in the printing of books presented to them, but does not recommend the extinction of that privilege regarding books already in their possession. The Commissioners think an arrangement might be made with the United States in regard to the printing of copyrighted works, but they discontinue recommendation. They also recommend that the time within which French authors may reserve the right of translation be extended to ten years.

## TO LESSEN THIS DANGER.

It is to be feared that the British Government might give some corresponding force of its pacific disposition. These reports furnish the probable explanation of the present attitude of the British Government towards the Turkish situation. The British Government is in a position to do what it pleases, and it is to be feared that it will do so.

## MONTENEGRO.

A telegram last night says the impression generally prevails in Constantinople that peace is at hand.

the Cardinal Archbishop of Paris has ordered prayers in the Cathedral of Notre Dame in honor of the victims of the Voltaire celebration today.
